Summary

Highly Passionate about Computer Technology. Want To learn more about Upcoming technologies. Participated in various activities and in the future seeking more opportunities to build and strengthen my career. I completed masters in information technology and systems. I am looking for more opportunities in IT sector field to gain some experience and upskill my career. I have done projects and know about various languages and computer skills. Respectful self-motivator gifted at finding reliable solutions for software issues.

Education

Victorian Institute of Technology,Melbourne , Masters in Information Technology and Systems	2023 – 2024
I.K.G.Punjab Technical University,Jalandhar,India , Bachelors in Computer Science and Engineering	2018 – 2022

Experience

Application developer Intern , Cardinia men Shed – Pakenham, Vic	Feb2024 – May 2024
<ul style="list-style-type: none">• Contributed to the development of web application using modern frameworks and technologies, increasing overall efficiency• · Developing application for the client to manage and record customers attendance data using modern framework such as react and Mern stack for application development• · Learned and adapted quickly to new technology and software applications. Self-motivated, with a strong sense of personal responsibility.• · Strengthened communication skills through regular interactions with others.	

Projects

Attendance management system

- Built management system at internship in which admin has right to mark attendance, register event, export data and register events. All crud functionalities were done in this project. Users can view their attendance, events and profile. For reporting exporting data to excel feature was made. Whole project was made in MERN Stack.

Celebrity Classifier Website

- Made a website with HTML, CSS, Javascript, Bootstrap in which user will upload image to detect that person's name according to it's facial features. Tested Various ML Algorithms in it and got efficiency of 78%. Used Python its Libraries like Numpy, Pandas, Seaborn, Flask Server and haar Cascade for facial Detection. Learnt Time ManagementSkills, Communication Skill by giving a presentation, Decision Making, Critical Thinking by applying different algorithms and making project more attractive and efficient., HTML, CSS, Javascript, Bootstrap, Python, Numpy, Pandas, Seaborn, Flask server.

Sorting Visualiser

- Implemented web technologies html,css,javascript to show working of different sorting algorithms like merge sort,linear sort,quick sort,selection sort,insertion sort., Technologies used HTML, CSS, Javascript .

Additional Experience And Awards

Engineer Technologist: Engineers Australia Assessment

Skills

C + +, Python, SQL, JavaScript, React, MongoDB, CSS, Web Development, Python Libraries (Numpy, Pandas, Matplotlib, Seaborn), Mern, Nodejs
